Re: ***Dow Corning® 798 White Sealant***

To Whom It May Concern:

Please be advised that *Dow Corning® 798 White Sealant* when properly cured and cleansed, is acceptable for food contact when used in accordance with the requirements of FDA regulation 21 CFR 175.105 "adhesives" when the *Dow Corning® 798 White Sealant* is separated from food by a functional barrier or used such that the quantity of adhesive contacting food does not exceed the limits of good manufacturing practices (GMP) at the seams.

This information is given in good faith based on available sources at the time of issuing. However, because conditions and methods of use of our products are beyond our control, this information shall not be used in substitution for customer's tests to ensure that Dow Corning's products are fully satisfactory for your specific application and compliant with all applicable laws thereof. Dow Corning disclaims any express or implied warranty of fitness for a particular purpose, and any liability for incidental or consequential damages.

Very truly yours,

Steven J. Chovanec
FDA Regulatory Compliance Specialist
