

Dow Performance Silicones

DOWSIL™ R41 Cleaner Plus

Cleaner Plus

Cleaner that allows cleaning and surface preparation in one step.

DOWSIL™ R41 Cleaner Plus improves the security of bonding applications as the surface is also prepared for bonding during the cleaning process. It is particularly effective when substrates show variance in their surface finish. DOWSIL™ R41 Cleaner Plus facilitates adhesion by surface activation of the substrates which promotes adhesion of the silicone to the substrate.

Product Facts DOWSIL™ R41 Cleaner Plus

- Useable shelf-life: 18 months
- Clear liquid cleaner

Application of DOWSIL™ R41 Cleaner Plus

- Clean surface with DOWSIL™ R41 Cleaner Plus using the 2-cloth-method
- Air dry between 15 to 30 minutes to allow all solvent to evaporate
- Apply the DOWSIL™ sealant according to the Dow Technical Manual

Characteristics

- Cleaning and surface preparation in one step
- Improved security due to surface activation

- Contains a special catalyst for adhesion preparation

DOWSIL™ R41 Cleaner Plus is not recommended to be used in combination with other primers such as DOWSIL™ 1200 OS Primer or DOWSIL™ Primer-C. It is developed to be used in applications where only cleaning is required. However, when compared with a normal cleaner, DOWSIL™ R41 Cleaner Plus can help to improve the adhesion build-up during the curing process following silicone application.

Contact Us

Dow is collaborating with industry professionals around the world to develop solutions to improve the energy efficiency of buildings for a more comfortable environment. Learn more about Dow's full range of High Performance Building solutions by visiting us online at consumer.dow.com/construction.

Dow has sales offices, manufacturing sites and science and technology laboratories around the globe. Find local contact information at consumer.dow.com/ContactUs.
