Subject: Compatibility between Norton Structural Spacer Tapes and Dow Silicone Sealants.

Dears,

Dow confirms that the following Dow Construction Silicone Sealants:

DowSil™993 Structural Glazing Sealant
DowSil™ 994 Ultra Fast Windows Bonding Sealant
DowSil™3362 Silicone Insulating Glass Sealant
DowSil™3363 Silicone Insulating Glass Sealant
DowSil™895 Structural Glazing Sealant
DowSil™3793 Insulated Glass Sealant
DowSil™813 C Construction and Concrete Silicone
DowSil™791 Silicone Weatherproofing Sealant
DowSil™796 Adhesive Sealant
DowSil™121 Structural Glazing Sealant

are compatible with the following Norton Structural Glazing Spacer Tapes:

Norton V2100 Thermalbond Structural Spacer Tape
Norton V2200 Thermalbond Structural Spacer Tape

Please note that the above-mentioned sealants are subject to the standard limitations as expressed in the relevant Dow product specifications.

The recommendation above are valid as long as the manufacturer does not make any changes.

Important Notice: Dow does not monitor formulation changes of said third-party's products, which may affect the above compatibility results. Therefore, you are hereby notified that the above compatibility statement is only and exclusively valid for the above mentioned Dow sealant when in contact with the third-party product(s) with batch number(s) as identified here above.

Specific limited warranties are also available from Dow, which includes individual project liability coverage, for determined performances of the above stated Dow products.

High Performance Building Solutions

Dow does not represent nor has tested whether or not any Dow sealant will affect third-party product performances by contact or otherwise, and you should consult with said relevant third-party product supplier to enquire about said compatibility/incompatibility, if any.

Best Regards,
